

NEW-AGE FURNITURE

If you thought that tattoos were just a form of body art, then think again... Tracey Collis and Claire Létoret have conceptualised the idea of integrating this ancient body art into furniture. Modern, bold and beautiful - every piece is a once-off creation, handmade with a technique that is unique to furniture design - tattooing. Tattoo Furniture is making waves with its unique and elaborately decorated product range. After launching its new company at Decorex Cape Town 2007, Tattoo furniture was awarded the Best Decor prize at the expo. With Tracey's and Claire's film industry and design backgrounds, Tattoo Furniture offers a service related business, where clients get to choose the design, fabric, colour and wood of their choice and the unique pattern which will be laser-cut into the wood before being hand-injected with ink. The countless blends of styles ensure timeless creations for a truly stylish interior. Contact: 021 421 1338, 021 421 1339, www.tattoofurniture.co.za
